### Atlantic Trust Reports Seventh Consecutive Quarter of Positive Net Flows

**ATLANTA, February 9, 2009**—For the quarter ended December 31, 2008, Atlantic Trust Private Wealth Management has reported positive net flows for its seventh consecutive quarter. In this difficult economic environment, Atlantic Trust's competitive positioning has been instrumental in expanding current relationships and building new ones.

"We are encouraged by our continuing quarterly positive net flows and attribute this success to our firm's investment philosophy, customized approach to managing clients' assets and the safety of client assets afforded by our operating platform" says Jack Markwalter, president and CEO. "With the current market and economic conditions uncertain, Atlantic Trust's platform remains strong, as we are solely focused on wealth management for high net worth individuals, families, foundations and endowments."

In the coming quarters, Atlantic Trust will continue to follow a tailored *selection* process by targeting clients in need of specialized services offered by the firm. These services are best leveraged by those with an asset base that can utilize the breadth and depth of investment management offerings, in addition to wealth advisory services available on the Atlantic Trust platform. This focus allows Atlantic Trust to remain committed to offering its clients a higher level of service and maintaining one of the lowest client-to-advisor ratios in the industry.

### About Atlantic Trust
